# MUHAMMAD

THE SUPREME OF CREATION - PBUH

ALLAH (S.W.T) created the very first creation – the sacred soul of Muhammad (PBUH) Billions of years ago from THEIR own NOOR and Muhammad (P) worshipped ALLAH (S) and ALLAH (S) sends Darood to THEIR QALEEL all the time . Then the angels were created to worship ALLAH (S) and send Darood to THEIR Beloved . Later Adam (A.S), Hawwa (A.S) , Jin , devil , heaven and hell were created . The universe was created circa 13.8 Million years ago and solar system came into existence circa 4.54 Million years ago . The day when Adam (A) and Hawwa (A) obeyed the devil , they were removed from heavens and sent to the earth along with Jin and devil circa 5202 BH , thus establishing mankind on earth . Over a period of time , devil proved his presence and mankind was deviated from the right path , 313 Apostles (Rasules) and 1,24,000 Prophets (Anbiya) were sent over a period of 5,000 years to guide mankind.

In 53 BH , ALLAH (S) created – THE AAQIR - THE LAST (P) , from the Body of Adam (s) and Muhammad (P) were born on 12th Rabi I in the year of Elephant as the last Prophet . Though Muhammad (P) is Apostle and prophet , but is the SUPREME in both the worlds – heavens and universe . In Urdu , it is rightfully referred as Sarkar e do Jahan . The new generation should not get confused with the title of Prophet , though a Prophet , but with a vast difference with the other Rasules or Prophets . The other Apostles and Prophets are ONLY Apostles and Prophets whereas , Muhammad (P) is EVERYTHING after ALLAH (S) .

In fact ALLAH (S) created

Everything by Muhammad (P)

Everything to Muhammad (P)

Everything for Muhammad (P)

And further says –

**“Whoever obeys Muhammad (P) is like obeying ME (S)”**

When Muhammad (P) is everything , even followers of Muhammad (P) are highly privileged and holds a special status and will be given salvation earlier to all the followers of other Prophets on the day of Judgment - Insha ALLAH

All praise be to ALLAH (S) , exalted blessings as well as complete peace be on our Prophet (P) on whom ALLAH (S) sends Darood all the time , and their family and companions .

It is a well known fact that , ALLAH (S) possess ' NOOR ' (Light) . During Meraj (Ascension) , Prophet (P) visited all the seven heavens on Burraq , Raf Raf (Green throne) and a ' Circle of NOOR ' that took to Qaba Qosain ( The uppermost horizon) passing all the 70,000 curtains of NOOR and met ALLAH (S) . Secondly when Musa (A.S) Pestered ALLAH (S) to show THEIR NOOR , a fraction of it was shown and the consequence – Burnt Mountain SINAI at Egypt is preserved by ALLAH (S) till the Dooms Day – Insha ALLAH .

When ALLAH (S) thought of Creation , THEY started with the creation of THEIR BELOVED – AHMED , QAEEEL , HABEEB , SOLLAM , AMEEN , AWWAL (The First) (P) from THEIR own NOOR without a body or form and Prophet worshipped for Billions of years . The angels were created from the NOOR of Prophet to worship ALLAH (S) and to send Darood to THEIR beloved . ALLAH (S) created the body of Adam (A) from the clay on which Prophet was worshipping and the NOOR of Prophet was infused . Subsequently heaven , hell and Jin were created from the heat of Prophet . Jin and Devil were created from fire . Adam (A) and Hawwa (A) lived happily in the heavens by following the instructions and worshipping ALLAH (S) .

By the insight of ALLAH (S) , the Universe was created from the Heat associated with the NOOR of Prophet , circa 13.8 Million years ago . The known Universe comprises of Billions ( $10^{11}$ ) of Galaxies which are moving away from each other confirming its expansion . Each galaxy has Billions ( $10^{11}$ ) of stars and some stars are even bigger than the nearest star – sun . Nuclear reactions take place in the sun producing Electromagnetic radiations , which comprises of Radiant Heat Radiations and Light Radiations . The Light radiations or in short light facilitates visibility , whereas Radiant Heat Radiations or in short Radiance is mandatory for living beings . This Radiance constitutes a medium on the surface of earth . Similarly the Radiance due to Billions of stars in Billions of galaxies produces the same Radiance in the entire universe . Since , the universe itself is created from the heat of Prophet (P) , the medium is called as ' MEDIUM OF PROPHET (P) ' , and Radiance is denoted by the symbol ' r ' - the title of Sollam (P) spiritually and fire scientifically . The Radiance spreads with a constant velocity of 1,86,000 miles per second unlike light , whose velocity was found to be decreased over a period of 300 years . Consequently Radiance ' r ' replaces the velocity of light in the equations as everything is taking place in the Medium of Prophet (P) .

The solar system was created circa 4.54 Million years ago and made suitable for living things to survive and flourish . Indeed , the size of universe is too big , the galaxy big , the solar system small , the earth very small and the moon negligible . Owing to the fact that , ALLAH (S) created this universe from the heat of Prophet , the splitting of the moon , no longer remains a miracle , as the ordinary laser itself is capable of cutting any material .

Adam (A) and Hawwa (A) were living in the heavens by praying ALLAH (S) and sending Daroods to Prophet (P). The day when Adam (A) and Hawwa (A) obeyed the devil, they were removed from heavens and sent to the earth along with Jin and Devil, circa 5202 B.H.

Birth is the WILL of ALLAH (S) [ Even a leaf will not flutter otherwise ] and the soul is the authorization to utilize the bounties of ALLAH (S) in the medium of Prophet for a given period. After completing the period, everything becomes useless and the body expires leaving the soul to return to ALLAH (S). The same soul is infused on the Day of Judgment – Insha ALLAH.

Adam (A) and Hawwa (A) met each other on Earth, married and as regards Mehr, on the orders of ALLAH (S), Adam (A) sent 20 Daroods to Prophet Muhammad (S). Children were born to them and established mankind on earth.

ALLAH (S) created angels, only to worship, whereas mankind to live the life given and worship ALLAH (S). Consequently mankind was made superior to all the creations. Over a period of time devil shown his presence and mankind was deviated from the purpose of creation. Since ALLAH (S) loves the creation and as such, will send down Rasule (Apostle) and Nabi (Prophet) to guide them to the right path. Rasules are those who are given new Shariath (Code of Law), whereas Prophets are those who follow the Shariath of the previous Rasule. From Adam (A) to Jesus (A); 1,24,000 Prophets and 313 Rasules were sent. Of the 313 Rasules, the names of 25 are mentioned in the Holy Quran and 5 of them are referred as 'ULULAZM' Rasules, including our last Prophet Muhammad (S).

Since Prophet Muhammad (P) is the First (Awwal) of the Creation, ALLAH (S) created the soul, Billions of years ago - and Last (AAQIR) to be sent, ALLAH (S) created the body of Sollam from the body of Adam (A) and Muhammad (S) were born to Hazrath Abdulla and Bibi Aamina on Monday the 12th Rabi I 53 B.H.

It is evident from the above that; the heavens possess NOOR and the universe – its associate heat, which has lower frequency than light. The higher frequency is attributed to souls of pure bodies whereas lower frequencies to souls of impure bodies. The human bodies have frequencies as their hearts beat 72 times in one minute having frequency –  $72/60 = 1.2$  Hz, which depends on deeds. The Good deeds will harmonize the frequency and enhances the purity of bodies. Impure bodies perish whereas pure bodies survive even after secluding from this Universe.

“ ALLAH (S.W.T) is SUPREME , WHERAS  
MUHAMMAD (S.A.W.S) IS SUPREME , IN THE SIGHT OF ALLAH (S.W.T) ”

# CREATION

Justifying the Creator to some extent can be done atleast by trying to understand the existing creation . The earth on which we live is like a sphere of radius 6000 kms and circumference 40,000 kms , which is rotating and revolving round the Sun . After imagining a sphere of circumference 40,000 kms , now imagine three lakh such spheres which are combined to form a single sphere , this single sphere constitutes our Sun . The Sun is at a distance of 15 crore kms and has a temperature of 2 cr degree . The highest known speed is the speed of Radiance ' r ' which is 3 lakh km / sec . In other words , it travels a distance of 3 lakh kms in one second . The light from Sun takes 8.3 minutes to reach the Earth . The Sun rotates about its axis and the earth along with the other six planets revolve round the Sun which constitutes our Solar System .

However big is our solar system , but occupies a very small place in our galaxy ' Milky Way ' . The diameter of our galaxy is  $10^{18}$  kms . In others words , 100 crore makes 1 Billion . Now imagine 1 Billion kilometers , where each kilometer represents 1 Billion Kilometers , then this will be the diameter of our galaxy . The Central thickness is  $6 \times 10^{16}$  kilometers and weight  $3 \times 10^{41}$  kg . The galaxy has  $10^{11}$  stars , in other words , ten lakh stars where each star represents 1 lakh stars . Sun is a star and some stars are even bigger than Sun . At a distance of  $28 \times 10^{15}$  Sun is a star and some stars are even bigger than Sun . At a distance of  $28 \times 10^{15}$  kilometres from the centre of galaxy , our solar system is situated . The Milky Way is rotating about its axis at the speed of 250 km / sec and takes 250 million years to complete one revolution . Apart from this , our galaxy is moving . Like Milky Way ,  $10^{11}$  galaxies are discovered till date , which are of different sizes and some are even bigger than our galaxy . All the galaxies are moving and the distance of the farthest galaxy is at a distance of  $3 \times 10^{22}$  km from earth . In other words , this Universe is expanding .

Scientifically speaking the matter , energy and space that exists , including all the  $10^{11}$  galaxies and each galaxy having  $10^{11}$  stars which are rotating and moving is known as ' Universe ' . The Universe began in a Big Bang about 13.8 billion years ago and may survive for another 3.6 billion years . The Universe discovered by mankind by using the self made devices such as high resolution Telescopes etc. , comprises a part of the Universe . The remaining is YET to be discovered . Apart from our Universe , there are probabilities of existing Multiverse .

After imagining the size of the creation , one will definitely feel that the size of galaxies small , the size our galaxy very small , the size of our solar system very very small , the size of our earth-negligible and the size of our Saints / Messengers / Avatars , of course so negligible which cannot be imagined . Secondly , after knowing the unimaginable might , one cannot compare the Saints / Messengers / Avatars with the Creator and cannot apply the same analogy of living beings who have family , children etc. , as an ant however powerful is , will belong to ant species and not any other powerful species . The Creator of unimaginable might has no family members who are negligible like us . Consequently the Creator neither has family nor any son . The Creator sent the Saints / Messengers / Avatars to preach the mankind about the good and evil .

The Saints / Messengers / Avatars successfully completed their mission and hence they deserve to be respected . Owing to ignorance and reverence , the mankind apart from respecting , started praying the Saints / Messengers / Avatars . In fact the Creator of the unimaginable might , who created Saints / Messengers / Avatars and everything , must be prayed and the Saints / Messengers / Avatars must be revered .

After creating Universe , the Creator made the things suitable for mankind to survive ( before the existence of mankind ) by providing oxygen , water, temperature by keeping the proper distance between Sun and Earth , the rotation of the earth to have days and nights , the revolving of earth to have all four seasons , forests , animals , agriculture for food etc. After providing all the facilities , the Creator infused intelligence in the brains of mankind to distinguish between good and bad and to understand and pray the Creator for having showered the bounties on mankind . To keep the mankind in the right path , the Creator showed the right path by sending Saints / Messengers / Avatars after according extraordinary powers to them in the form of human beings , so that they can live with us and preach to be thankful by worshipping the Creator .

Since the existence of mankind , the mankind was not aware of the Might and assumed that , the creation consists only of earth , sun and stars and because of innocence and ignorance started praying the Saints / Messengers / Avatars who were like us , by assuming them as Creator . But now it is evident that , the size of the Universe is unimaginable and the imagination of Creation is almost next to impossible . Consequently there is Creator or One God of unimaginable might , who has no family or son and all must pray in return of the bounties showered on us .

**“ MAY THE CREATION FULFIL THE CAUSE FOR WHICH THEY ARE CREATED ”**

# **RADIANCE OF PROPHET MUHAMMAD PBUH**

It is proved from my research that, the existing medium in the Universe is HEAT , and its cause is PROPHET MUHAMMAD [ PBUH ] , from the evidences of NOBLE QURAN and the recent developments in the field of Science [ Physics ]

It is a known fact that ALLAH [ S.W.T ] created Prophet Muhammad [ PBUH ] – the first creation 'AWWAL' from HIS own NOOR without a body or form . Angels , Adam [ A.S ] and Hawwa [ A.S ] were created from the NOOR of Muhammad [ PBUH ] , whereas Jin , Heaven , Hell and Universe were created from the Heat associated with the NOOR of Muhammad [ PBUH ] . It is confirmed that 'Universe is created from Heat ' . [Please refer the Book titled "Numeric Biography of Prophet Muhammad {PBUH }"] and {www.prophetmuhammad.info }.

The Noble Quran is a complete book of knowledge, which explains everything that is created by ALLAH [ S.W.T ] . As regards the Universe and its creation , it is mentioned in Sura Fussilath [ 41 ] and Verse [ 11 ] , that " Then HE directed HIMSELF to the heaven while it was smoke and said to it and to the earth , come [ into being ] willingly or by compulsion " . They said we have come willingly. It is obvious that, Universe is created from smoke or in general fire or Heat.

The Universe consists of galaxies and space. There are billions of galaxies and each galaxy has billions of stars. Fusion reactions takes place in the stars and enormous amount of heat and light energy is received by the surrounding heavenly bodies. In other words, heat is prevalent surrounding all the stars of all the galaxies in the Universe.

The Space was considered a vacuum earlier. In 20th century, it was found that, [1] Though vacuum does not transmit sound , it will transmit heat and light with other radiations and came to be called as Physical Vacuum , and

[2] The Physical Vacuum possess heat energy known as Zero Point Energy. It is proved that heat exists even in space.

It is evident that, the Universe is created from heat and it prevails in the entire Universe. Since the Universe itself is created from the heat of Muhammad [ PBUH ] and created for Muhammad [ PBUH ] , the medium may be called as " Radiance of Prophet Muhammad [ PBUH ] " and its speed may be denoted by 'r' [ In honour of Rasool [ PBUH ] ]

## **"THE MEDIUM OF UNIVERSE IS THE RADIANCE OF PROPHET MUHAMMAD [ PBUH ]"**

Radiance is all pervasive and mandatory for all living and non-living, even atom / cell would not have survived otherwise. Consequently we are surviving in the Radiance of Prophet Muhammad [ PBUH ].

## **"PREVALENCE OF RADIANCE, FROM STARS PRESUMED THE SOURCE ORIGINAL, IS PROPHET [PBUH] INDEED"**

# RADIANCE - THE UNIVERSAL MEDIUM

In ancient times , the study of heavenly bodies and their properties was called ' PHYSIS ' ( FU - SIS ) , which is the abbreviation of 'NATURE' or Natural Philosophy In 4th BCE , Aristotle named these studies as ' PHYSICS ' , which deals with Mass , Energy and their relationship . The insertion of ' C ' , might have caused the Scientists from Aristotle to Einstein to concentrate on light and its Velocity , neglecting the basic element heat , even though both are received by the earth since existence. In fact the merits of heat surpasses merits of light.

The known Universe mainly comprises of matter in the form of heavenly bodies in which Nuclear reactions takes place in some and the rest are receiving the energy produced by them . It has billions ( $10^{11}$ ) of galaxies of different sizes which are moving away from each other confirming the expansion of the Universe (Georges Lemaitre 1894 – 1966) . Each galaxy has billions ( $10^{11}$ ) of stars and some are even bigger than the nearest star – sun. Fusion reactions takes place in the core of the sun releasing enormous amount of energy in the form of mainly heat and light radiations which is received by the earth . It receives more than 1kw/sq.m of heat at sea level. In fact earth receive more than half as heat and remaining as light (etc ) , which is absorbed and re-radiated as heat making heat as the major element received by the earth .

In 1800 CE William Herschel discovered heat rays and rightfully called them as calorific rays and James Prescott Joule (1818 – 89) discovered heat as a form of energy. At the end of 19<sup>th</sup> Century, these rays came to be called as 'Infra Red 'or IR. Later Electromagnetic waves were discovered and found that heat and light are received by the earth in the form of Electromagnetic waves.

The range of all possible frequencies of electromagnetic radiations is known as Electromagnetic Spectrum

It consists of Radio Waves, Micro Waves, Infra Red, Visible, Ultraviolet and Gamma Radiations having frequencies from  $10^0$  to  $10^{20}$  Hz. All the radiations have the same velocity of 3, 00,000 km / sec in vacuum. The lowest frequency till visible light  $10^{14}$  Hz are received by the earth whereas the harmful higher frequencies are absorbed by the ozone layer of the earth.

The characteristics of IR are warmth , scalar , low frequency , high wave length and night vision ( using IR cameras) whereas light are visibility , vector , high frequency , low wavelength , instant and moves in straight lines as discovered by Al Hazan from Iraq ( 965 – 1040 ) - The father of Modern Optics. Later experiments of diffraction proved that light travels Almost in straight lines. The main characteristics of IR is that, it spreads and covers the entire surroundings irrespective of the obstacles and is sustainable whereas light is neither sustainable nor covers the surroundings.

The reactions similar to the nuclear reactions of the sun are taking place in different stars of our galaxy ' Milky Way ', our cluster of Galaxies ' Local Group ', our super clusters ' Virgo ', different clusters , different super clusters and in general the Universe , producing the same electromagnetic radiations . It is found that, a medium exists between the clusters known as Intra Cluster Medium or ICM, which consists of heated gas having temperatures of the order of 7.9 kev . The Galaxies move with a maximum velocity of 1000 km / sec and our Galaxy is moving with a velocity of 600 km / sec towards the 'Great Attractor ' . In other words, a medium of heat exists in the Universe.

In 17th Century, Vacuum or Classical Vacuum was defined as a totally empty volume of space or just nothingness or in general space which is devoid of matter. As science has learned more about the properties of space, the properties of vacuum has taken a considerable leap forward. In 20<sup>th</sup> century, it was found that although the vacuum will not transmit sound, it will transmit heat, light and all other wavelengths of Electromagnetic Spectrum came to be known as 'Physical Vacuum ' . For instance , if the container which is void of solid , liquid and gas is insulated so that no heat can get in or out and then cooled to Absolute Zero (-273.15<sup>0</sup>C or - 459.67<sup>0</sup>F ) , it was found that , vacuum still has energy known as 'Zero Point Energy ' or ZPE . It is of the order of  $10^{98}$  to  $10^{100}$  ergs /cc. The mysterious nature of physical vacuum is revealed by Quantum Electro Dynamics - It is not an empty nothing but contains randomly fluctuating electromagnetic fields with an infinite zero point energy. The zero point energy is found to be universal and all pervasive.

The zero point energy forms a cloud of natural particles surrounding a proton or electron. If the electron is penetrated deeply into the cloud, then its negative charge was found to be increased. Even the absorption and emission of these virtual particles caused the electron's 'Jitter Motion' in vacuum at absolute zero known as ' Zitterbewegung ' . This bears testimony with the existence of zero point energy.

In 1948, Hendrik Casimir – the Dutch scientist , found that , if two large metal plates are brought closer but not touching, then the longer wavelength of zero point energy act on the plates causing the plates to move towards each other.

This phenomenon is known as ' Casimir Effect ' . It is confirmed nine years later by M.J. Sparnaay of Holland. Similary if the distance between the boats is less than the distance between two wave crests (or one wavelength), the boats are forced towards each other. This Casimir Effect is directly proportional to the area of the plates and is inversely proportional to the fourth power of the distance between them. The Casimir Effect too bears testimony with the reality of zero point energy.

According to Dr. Hal Puthoff ( 1990 ) from Texas , an electron orbiting round a proton radiates energy and as it loses energy , it should spiral in to the atomic nucleus , which did not happen , as the electron gains energy from zero point energy . It was like a child on a swing; just as the swing started to slow; it was given another push to keep it going. The power lost by electron and the power gained from the zero point energy were found to be same. Consequently without the zero point energy, every atom in the universe would undergo instantaneous collapse. In other words, the zero point energy is maintaining all atomic structures in the entire universe.

It is evident that, vacuum no longer exists but with the Zero Point Energy or Heat or Infra Red called Physical vacuum. IR exists on earth, between the galaxies, super cluster and in general the entire universe and forms a MEDIUM. In the absence of IR, even the atomic structure would have collapsed. Since the creation of Adam and Eve, it was known that there are five basic elements of life which are – air , water , fire , earth and metal . In other words, fire or heat or IR is mandatory for surviving. In General IR is mandatory for the living and non living in the universe.

### **Even Newton would not have born to watch the apple falling from the tree.**

In fact we had knowingly forgotten (for which the scientist's are famous) the IR and all the scientists from dark ages till date gave prominence to the light and its velocity. In practice we followed the adage ` Survive on one and praise the other '. The name IR does not justify its significance as the Red in it, is a part of the light. Actually it is named as ` one earlier to the other '. At this juncture, I would suggest that IR may be renamed in terms of heat radiations or radiant heat or in short '**RADIANCE**'

As a consequence of all these findings, it is evident that  
**'We are living in the medium of Radiance, which belongs to  
Prophet Muhammad [ PBUH ] . And it is Universal and all Pervasive '.**

The Radiance finds applications in many equations derived since centuries including the Einstein's Equation,  $e = m c^2$ . Consequently New Equation  $e = m r^2$  is derived, where r is the speed of Radiance. And the equation is named as **AMEEN'S EQUATION**.

# AUTHOR'S NOTE

I hail from the Silicon Valley of India, Bengaluru and born to Hazrath Syed Abdul Kareem and Bibi Meharun Nisa , who belonged to the noble profession of Pedagogy . I obtained a Post Graduate degree in Physics and served in many colleges as lecturer and later as visiting professor. I am a life member of the Indian Association of Physics Teachers and spent 63 years of my life.

“The JHS Institutions” is our brain child. I am the Chairman and my spouse Mrs. Syeda Shahwar Banu is an Awardee and Founder Principal of this pet establishment since 1979 .

The desire to take up research made me to become the life member and Fellow of United Writers' Association of India in the year 1988 and completed my research on the subject 'Soluble models for the development of 3D technology '. I was awarded Ph.D in theoretical physics from The International University, California, USA in the year 1992.

I have authored many publications on physics, which includes the most famous 'Physics made simple' series first published in 2007 and saw a number of revised editions. I have authored many couplets and poems in different languages, essays on Creator, Creation, Universe etc.

My observation on the master plan and construction of Holy Kaaba , built by angels on the elevated land at the time of creation and the study about Vastu and FengShui are found to be indistinguishable , even though it happened 4.54 billion years ago . Further, my passion for mathematics leads me to study the Arabic Numerology (Abjad).

The teaching of Physics and in particular the Universe for three long decades and the spiritual knowledge from Noble Quran that “Universe is created from Smoke “[ Sura 41and Verse 11 ] , motivated to think about the Universal Medium . And I was successful in proving that “Radiance is the Universal Medium and it belongs to Prophet Muhammad[ PBUH ]” Consequently the Speed of Radiance replaces the Velocity of Light in many equations derived since centuries, including the Einstein's equation  $e = m c^2$

I have derived the New Mass Energy Equation  $e = m r^2$  and named as  
**AMEEN'S EQUATION.**

Even after 1400 years, different books have different date of birth of Prophet Muhammad [PBUH] and in particular the year as 570 and 571 CE. Mankind has progressed in all walks of life yet, failed to find the exact dates of the previous centuries. The lineage and affinity towards Prophet [PBUH] motivated to formulate a calendar of the period of their lifetime. Consequently I formulated a calendar of the past, present and future centuries and named as

### **WORLD ETERNAL CALENDAR or AMEEN CALENDAR.**

It is a known fact that Prophet [PBUH] was born and secluded on Monday and lived for 63 years in this world. The study of many 63 years has proved that "There will be 22331 days in any 63 years between the same days ". Consequently I made a law , which states that " IN ANY 63 LUNAR YEARS AND BETWEEN THE SAME DAYS , THERE MUST BE 22331 DAYS " and named as AMEEN'S LAW .

The application of calendar and the law has proved the date of birth as Monday the 22 nd April 571 CE.

I have authored the Numeric Biographies of Syedina Imam Ali ( R ) , Lady Fathima Zahra ( R ) , Imam Hassan ( R ) and Imam Hussain ( R ). I have also authored the Numeric Biographies of Holy Saints - Ghous e Pak ( R ) , Khwaja Gareeb Nawaz ( R ) , Khwaja Nizamuddin Auliya ( R ) and Khwaja Bande Nawaz and found out their exact DATES of birth as well as DAYS of birth .

My research on their DAYS OF BIRTH has confirmed the DIVINE FACT that , ONLY prophet Muhammad (P) was born on MONDAY , where as all Saints / Messengers / Prophets , from Adam (A) to Jesus (A) have born on FRIDAY , including the ten important events that took place in the lifetime of Prophet (P)

During the process of making the calendar, all the calendars got stored in my memory and I am capable of PREDICTING the day of any given date that one can imagine from time immemorial to eternity.

I strongly feel, life is a sojourn for constant quest and explorations for truth in materialistic and non-materialistic worlds. I hope to live up to it (GOD willing).

# **WORLD ETERNAL CALENDAR**

It is a very well known fact that , though mankind has progressed in all walks of life yet , failed to find the exact dates of the previous centuries in pre common or post common era . Consequently , the exact dates of the important events in the world could not be found . In fact the quest to find the exact Date of Birth of the " Last Messenger of GOD " caused the beginning of my research and as a sequel , I took up the research on the before common era . In this direction , an attempt has been made by me to formulate a calendar , which provides the exact dates from Time Immemorial to Eternity .

In my 60 years of life , I have dedicated seven years in the formulation of the calendar , which shows the exact dates from 01.01.0001 C E till date and extended it till eternity , for which even the internet bears testimony . In addition to this I have formulated the exact dates of the pre common era from 01.01.0001 BCE to Time Immemorial , thus creating the Calendar to exhibit all the years of existence and future .

The authenticity and collateral proof of this calendar is evident from my contemporary , Mathematician Steve Dinh (USA) , who has proved 01.01.0001 C.E as Monday by Mathematical calculations which is available on the link <http://www.searchfor/ancestors/utility/dayofweek-html> . My calendar bears testimony with his calculation of days between 01.01.0001 CE and 31.12.2015 CE as 7,35,963 .

I am very glad to say that , the reliability and validity factors of the newly formulated calendar were found out to be consistent and immaculate . It is named as ' WORLD ETERNAL CALENDAR ' or in short " AMEEN CALENDAR " .

The very first application is obviously about the date of birth of Prophet Muhammad (PBUH) , which I found was Monday the 22<sup>nd</sup> April 571 CE .

## The known lunar dates of the important events and their corresponding Solar Dates .

IMPORTANT EVENTS	LUNAR DATE	SOLAR DATE	DAY
PROPHET MUHAMMAD'S DATE OF BIRTH ( PBUH )	12 Rabi I 53 BH	22.04.571 CE	MONDAY
IMAM ALI'S DATE OF BIRTH ( R A )	13 Rajab 23 BH	26.09.600 CE	FRIDAY
BIBI FATHAMA ZAHRA'S DATE OF BIRTH ( R A )	20 Jamadi II 19 BH	27.07.604 CE	FRIDAY
PROPHETHOOD	12 Rabi I 13 BH	16.02.610 CE	FRIDAY
FIRST REVELATION OF QURAN	18 Ramzan 13 BH	17.08.610 CE	FRIDAY
MERAJ	27 Rajab 02 BH	02.03.621 CE	FRIDAY

# **M I L A D U N N A B I**

Calendars are established on the revolution of either moon or sun and are called lunar and solar calendar. Lunar calendar is usually used for religious purpose whereas solar calendar for all other purposes. It is evident that, Prophet [PBUH] was born on Monday the 12<sup>Th</sup> Rabi I in the year of elephant and Mawlid is celebrated all over the world on the same day. The year of elephant existed 53 years earlier to the Hijrath and the Hijri calendar came into existence from the same year.

## **DATE OF BIRTH OF PROPHET [PBUH]: 12.03.53 BH: MONDAY**

Prophet [PBUH] got married to Khatija Al Kubra [R.A] at the age of 25 years and adopted paternal cousin Imam Ali [R.A] on the same day of Birth on Friday the 13<sup>Th</sup> Rajab 23 BH.

## **DATE OF BIRTH OF IMAM ALI [R.A]: 13.07.23 BH: FRIDAY**

ALLAH [S.W.T] blessed Him [PBUH] with a Noble Daughter Fathima AZ Zahra [R.A] on Friday the 20<sup>Th</sup> Jamadi II 19 BH.

## **DATE OF BIRTH OF FATHIMA AZ ZAHRA [R.A]: 20.06.19 BH: FRIDAY**

Prophethood was attained on Friday 12<sup>Th</sup> Rabi I 13 BH, the 40<sup>th</sup> Birthday.

## **PROPHETHOOD: 12.03.13 BH: FRIDAY**

First Revelation of Noble Quran took place on Friday the 18<sup>th</sup> Ramzan 13 BH

## **FIRST REVELATION OF NOBLE QURAN: 18.09.13 BH: FRIDAY**

Meraj took place on the night of Friday the 27<sup>Th</sup> Rajab 02 BH.

## **MERAJ: 27.07.02 BH: FRIDAY**

Prophet [PBUH] left Makka on Friday the 27<sup>Th</sup> Safar and spent three days and nights in the cave Thoor. On Monday the 1<sup>st</sup> Rabi I, left the cave and reached Holy Madina on Friday the 12<sup>th</sup> Rabi I, the 53<sup>rd</sup> Birthday and Hijri calendar came into existence from the same year.

## **HIJRI CALENDAR: 01.01.001 H: FRIDAY**

## **HIJRATH: 27.02.01 H: FRIDAY**

The very first aim of Prophet [ PBUH ] was to construct a Mosque and after fulfilling , performed the marriage of Imam Ali [R.A ] with Fathima Zahra [ R.A ] on Friday the 1<sup>st</sup> ZilHaj 2 H .

## **MARRIAGE OF ALI [R.A] AND FATHIMA [R.A]: 01.12.02 H: FRIDAY**

Change of Qibla was ordered on Friday the 15<sup>Th</sup> Shawal 2 H

## **CHANGE OF QIBLA: 15 08. 02 H: FRIDAY**

Fasting was made mandatory on Friday the 1 st Ramzan 2 H.

## **FASTING: 01 09. 02 H: FRIDAY**

Congregational Prayers were ordered and the first Congregational Prayer was offered on Friday the 28th Ramzan 2 H.

## **CONGREGATIONAL PRAYER: 28. 09. 02 H: FRIDAY**

Hijab was made compulsory on Friday the 1 st Zi Qaida 4 H.

## **HIJAB: 01 11. 04 H: FRIDAY**

The Holy Kaaba was conquered on Friday the 20 th Ramzan 8 H.

## **KAABA CONQUERED: 20. 09. 08 H: FRIDAY**

Prophet [PBUH] performed Hajjathul Wida on Friday the 9 Th ZilHaj 10 H.

## **HAJJATHUL WIDA: 09. 12. 10 H: FRIDAY**

After returning from Makka, Prophet [ PBUH ] informed Fathima [ R.A ] that “ He would leave this world soon ”, and fell ill . The dearest Father secluded on Monday the 16 Th Rabi I 11 H.

## **DATE OF SECLUSION: 16. 03. 11 H: MONDAY**

The corresponding solar dates of all these events were not available, as the present Gregorian calendar came into existence since 1582 CE. Earlier Julian calendar was existing and it was discarded due to its discrepancies. The calendar of previous centuries does not exist and even the present day Internet fails to provide the same.

In this context, a research was taken up, and formulated a calendar which shows the exact dates from 01. 01. 001 CE till date and extended till infinity, for which even the Internet bears testimony. As a sequel, the exact dates from 01. 01. 001 BCE to Time Immemorial was formulated. Thus creating a calendar which shows the exact dates from “ **TIME IMMEMORIAL TO INFINITY** ” and named as “ **WORLD ETERNAL CALENDAR** ” or “ **AMEEN CALENDAR** ”.

The authenticity and collateral proof of this calendar is evident from contemporary Mathematician Steve Dinh from America, who has proved 01. 01. 001 CE as Monday by mathematical calculations, which is available on the link <http://www.searchfor/ancestors/utility/dayofweek-html>. The newly formulated calendar bears testimony with his calculations. It also bears testimony with the number of days between 01. 01. 001 CE and 31. 12. 2015 CE as 7, 35,963.

All the lunar dates of the above known important events are successfully incorporated on this calendar and obtained their corresponding solar dates.

EVENTS	LUNAR DATE	SOLAR DATE	DAY
IMAM ALI'S DATE OF BIRTH [ R ]	13. 07. 23 BH	26.09. 600 CE	FRIDAY
FATHIMA 'S DATE OF BIRTH [ R ]	20. 06. 19 BH	27. 07. 604 CE	FRIDAY
PROPHETHOOD	12. 03. 13 BH	16. 02. 610 CE	FRIDAY
FIRST REVELATION OF QURAN	18. 09. 13 BH	17. 08. 610 CE	FRIDAY
MERAJ	27. 07. 02 BH	02. 03. 621 CE	FRIDAY
HIJRI CALENDAR	01. 01. 01 H	19. 07. 622 CE	FRIDAY
HIJRATH	12. 03. 01H	27. 09. 622 CE	FRIDAY
MARRIAGE OF ALI [ R ] AND FATHIMA [ R ]	01. 12. 02 H	28. 05. 624 CE	FRIDAY
CHANGE OF QIBLA	15. 08. 02 H	13. 02. 624 CE	FRIDAY
FASTING	01. 09. 02 H	27. 02. 624 CE	FRIDAY
CONGREGATIONAL PRAYER	28. 09. 02 H	26. 03. 624 CE	FRIDAY
HIJAB	01. 11. 04 H	07. 04. 626 CE	FRIDAY
KAABA CONQUERED	20. 09. 08 H	08. 01. 630 CE	FRIDAY
HAJJATHUL WIDA	09. 12. 10 H	09. 03. 632 CE	FRIDAY
DATE OF SECLUSION	16. 03. 11 H	11. 06. 632 CE	MONDAY

It is to be observed here that – [1] All the known days and dates of the lunar calendar matched exactly with the days of the solar calendar, substantiating its authenticity and [2] All the events took place on a particular day FRIDAY. It is a well known fact that birth, death, entering and removal of Adam [A.S] from heavens, birth days of Prophets, Rasools and Saints took place on the same day. And even the Doomsday will take place on FRIDAY – Insha ALLAH.

A date of birth has day, date, month and year. As regards the Day of Birth of Prophet [PBUH], He Himself had told the companions that “I observe fasting on Mondays as I was born on that day”. The month should be Rabi I, as it is known that, Prophet [PBUH] lived for just 63 years. The date and year can be confirmed by Ameen's Law, which states that;

**“IN ANY 63 LUNAR YEARS AND BETWEEN THE SAME DAYS,  
THERE MUST BE 22331 DAYS”**

Counting 22331 days from the day of Seclusion on Monday the 11<sup>th</sup> June 632 CE backwards, it was found out to be Monday the 12 Rabi I 53 BH. And the corresponding solar dates were found out to be 16<sup>th</sup> Rabi I 11 H and 12<sup>th</sup> Rabi I 53 BH respectively. In view of the successful incorporation of the lunar dates of all the known events on the solar calendar as well as its perfect match with the days of the solar calendar and 22331 days between the birth and seclusion, it can be concluded that Prophet [PBUH] was born on Monday the 22<sup>nd</sup> April 571 CE.

## **D A T E O F B I R T H :**

**12. 03. 53 BH: 22. 04. 571 CE: M O N D A Y**

Prophet [PBUH] spent a life of 63 years and 4 days [lunar] / 61 years 1 month and 19 days [solar] / 22331 days, in this world. The Arabic Numerology [Abjad] also bears testimony with this Date of Birth of Prophet Muhammad [PBUH].

SELCLUDED ON MONDAY, SPENDING A LIFE OF 63 YEARS AND 4 DAYS  
IN THIS WORLD

16.03.11 H ≡ 11.06.632 CE

No. of Days 22257 + 74 = 22331

DATE OF VISAAL OF BIBI FATHIMA ( R A )

03.06.11 H - 27.08.632 CE - MONDAY

# **“ALLAH ( S.W.T.) IS THE FRIEND SUPERIOR”**

THE LAST WORDS OF MUHAMMAD – PBUH

**ALLAH**  
**(S.W.T)**

WHAT CAN, ONE WRITE  
AND, THE OTHER UNDERSTAND.  
(SWT), KNOWS BETTER  
THE PLACE OF ( PBUH ).

**MUHAMMAD**  
**(P.B.U.H)**
